

Summary of 2025 Annual Plan to be posted on Academy Web site

Major objectives:

An ad hoc Task Force co-chaired by David Vaccari and Debra Reinhardt will review and present updated Environmental Engineering Body of Knowledge to be approved by the Board of Trustees and published by the Academy

The Education Committee will use the updated Environmental Engineering Body of Knowledge to develop an updated Environmental Engineering Program Criteria to be submitted to the Engineering Accreditation Commission of ABET Inc for adoption.

The Executive Director will work with the Bylaws, Policies and Procedures Committee to complete a vote of the Academy membership to approve a modified Bylaws, which incorporate Tau Chi Alpha (TXA) as a constituent of the American Academy of Environmental Engineers and Scientists.

The Education Committee will host a first, annual Environmental Engineering Program Leaders meeting.

An ad hoc Task Force chaired by David Vaccari will streamline the process of Board Certification.

The staff will work with the Publications Committee to publish a Special Thematic Issue of Environmental Engineer and Scientist Magazine on the topic of Air Pollution as part of the Celebration of the 70th anniversary of the founding of the Academy by October 2025.
