

Student Members are enrolled and pursuing a course of study leading to a degree in environmental engineering (or a related field) or environmental science (or a related field).

PUBLICATIONS

The Environmental Engineer and Scientist

Includes features and articles on environmental engineering and science issues, a peer-reviewed Applied Practice and Research section, current events, news in the engineering and science professions, and more. Published quarterly electronically.

Environmental Engineering Body of Knowledge (2009 Edition)

Defines the knowledge, skills, and abilities needed to practice Environmental Engineering at the professional level. Published electronically.

WEBSITE AND NETWORKING

AAEES Website: <https://www.aees.org>

Contains complete information on the Academy and its structure, calendar of events, Award programs, downloadable resources, links to Sponsoring Organizations, a Career Center for free posting of resumes and job searches, internships, and more.

Social Media

American Academy of Environmental Engineers and Scientists LinkedIn offers opportunities for building your career network, education, improving your education, and opportunities to collaborate with engineers and scientists around the world.

Student Chapters and Tau Chi Alpha

AAEES will help you form a Student Chapter so you can collaborate with other student members, student chapters, and a Tau Chi Alpha honor society.

AWARDS

Excellence in Environmental Engineering and Science® Competition

Annual international project competition including research, planning, design, and operations/management.

Environmental Communications Awards

Annual international project competition showcasing environmental communications projects.

Individual Awards

Awarded to deserving members of the professions by the Academy each year.

MENTORING OPPORTUNITIES

The Academy is developing a mentoring program for Environmental Engineering and Environmental Science professionals to share their knowledge and experience with AAEES Student Members and young professionals.

SEMINARS, WORKSHOPS, AND WEBINARS

Opportunities to attend or host national and regional activities as stand-alone events or in conjunction with an Academy Sponsoring or Affiliated Organization. Speaking opportunities available!

KAPPE LECTURE SERIES

Annually brings a recognized environmental engineer or scientist to university campuses across the United States.

COMMITTEES AND WORK GROUPS

Serve on AAEES committees to further our mission, network with other professionals, and be recognized for your efforts.
