MEMBERSHIP  
BENEFITS**

AMERICAN  
**ACADEMY**  
OF ENVIRONMENTAL ENGINEERS & SCIENTISTS®

## Student Member Benefits

---

### **Publications**

The Environmental Engineer and Scientist includes articles on environmental engineering and science issues, a peer-reviewed Applied Practice and Research section, current events, news in the engineering and science professions, and more. Published quarterly.

### **Mentoring Opportunities**

The Academy is developing a mentoring program for Environmental Engineering and Environmental Science professionals to share their knowledge and experience with AAEES Student Members and young professionals.

### **Website and Networking**

The AAEES website contains complete information on the Academy and its structure, calendar of events, Award programs, downloadable resources, links to Sponsoring Organizations, a Career Center for free posting of resumes, internships, and more.

### **Social Media**

AAEES social media offers opportunities for building your career network, education, improving your education, and opportunities to collaborate with engineers and scientists around the world.

### **Webinars**

AAEES hosts bi-weekly webinars with leaders in the industry. These webinars are completely free to student members.

### **Awards Competition**

Annual international project competition including university research, planning, design, and management and more.

### **Kappe Lecture Series**

Annually brings a recognized environmental engineer or scientist to university campuses across the U.S.

### **Committees and Work Groups**

Serve on AAEES committees to further our mission, network with other professionals, add to your resume and be recognized for your efforts.

## Become a Student Member

---

Becoming a Student Member is a first step in your life-long career in environmental engineering or environmental science. It is the Academy's sincerest desire that every student will aspire to undergo the process for obtaining Specialty Certification once they have reached the appropriate amount of training and experience. FREE Student membership is extended a year post-graduation to assist you in your journey.
